

**The simple, reliable and affordable way
to add a Please Hold message to your
small office/home office.**

2 Line, "Star" Activated Message-On-Hold adapter

The PH-704-2 is a two line Message-On-Hold coupler that can be added to any non-system telephone. This unit is based on the same technology as the PH-704, 4 line unit; This unit connects directly to the telephone lines and can be used by all of the phones on its lines; you can place someone on hold, through the PH-704-2, on one phone and pick them up on a different phone without hassle. It also works with single line or multi line-cordless phones! This unit provides excellent audio quality for connection to any audio source through an industry standard RCA audio jack; from inexpensive tape decks to the latest digital playback units, you won't be disappointed. The fact is, the PH-704-2 is much better than most any other telephone Promotion-On-Hold adapter currently on the market, short of buying an expensive telephone KEY system. The PH-704-2 is the product of years of usage and refinement.
